CODE OF BUSINESS ETHICS & CREDENTIALING STANDARDS OF SERVICE AGREEMENT

The Association's Code and Standards are designed to promote honest and ethical conduct in Arizona's In-Home Care industry. They are also designed to facilitate and encourage prompt reporting of Code and/or Standard violations and to promote accountability for adherence to the Code and Standards and their underlying principles.

It is the responsibility of all AZNHA members to maintain a business environment that fosters fairness, respect and integrity. It is the Association's policy that its members are lawful, highly principled and socially responsible in all business practices. All members are expected to become familiar with this Code and to apply these guiding principles in the daily performance of their business activities and responsibilities

ETHICS:

- A. Operate their businesses with due diligence and professional care in accordance with professional standards and best practices, including carrying workman's compensation, professional liability insurance and maintaining a payroll service that complies with all state and federal laws.
- B. Serve in the interest of their clients and business organizations in a lawful and honest manner, while maintaining high standards of conduct and character and not engage in acts discreditable to the industry or to the Association.
- C. Maintain the privacy and confidentiality of information obtained in the course of their duties, unless disclosure is required by legal authority. Such information shall not be used for personal benefit or released to inappropriate parties.
