## **HR Provider Integrity Outsource Pledging \$50,000 To Help Arizona Small Businesses Affected by COVID-19**

**(PHOENIX, Ariz.)** – Navigating changes in the federal and state legislative climate is daunting amidst the ever changing COVID-19 environment. With the HR landscape changing daily, [Integrity Outsource](#), a leading HR services firm, announced today that they are pledging a total of \$50,000 in free HR outsource services to help struggling Arizona businesses whose operations have been affected by the COVID-19 pandemic.

Effective immediately, all of Integrity Outsource's new clients will have administrative fees (normally \$500/mth minimum) waived for 90 days and will gain access to their team of experts in HR, payroll, and legislative compliance.

“We have strong roots in Arizona and want to be part of a solution for local business owners. This initiative will give them access to the right HR information while providing a needed financial break,” said Integrity Outsource's President Joe Beers. “As unemployment claims, FMLA, paid sick leave, and other issues arise, clients can count on us to let them focus on other critical areas of their business.”

Whether companies have HR in-house or business owners handle it all themselves, the flood of information is ever-changing and Integrity Outsource has become a vital resource for small businesses to rely on and condense the continuous changes/updates into practical application.

Businesses interested in signing up for Integrity Outsource's complimentary services, should call John Komadina at 602.955.5500. For more information on Integrity Outsource, visit
